# Challenges

- Difficulty working together in the beginning due to everyone being strangers
- CI/CD, specifically JS Docs and Jest
- Struggled with communication in Slack and Zoom
- As we became familiar with each other and learned more we fixed our communication and CI/CD issues

# Advice

- Start early
- Update your project board
- Communicate
- Don't lose focus

# Congratulations!

You have graduated from being a Student Agent to a Special Agent. Get out into the field and start cooking.
